

Antonio García Morán

Computer Systems Engineer | Software Developer

+52 833 182 0722 • aantoniogm17@gmail.com • Tampico, Tamaulipas, Mexico

PROFESSIONAL SUMMARY

Computer Systems Engineer and M.Sc. in Computer Science candidate, with experience across the full development cycle: requirements analysis, database modeling, web and mobile module development, and functional testing prior to release. Comfortable working in collaborative development teams, with a focus on building functional, maintainable and well-documented software.

WORK EXPERIENCE

SoftTam

Junior Developer • September 2025 – May 2026

- Contributed to the architecture definition of a food delivery application, participating in backend structure and data model decisions.
- Developed web and mobile features using Angular and Ionic on a C# backend.
- Designed and administered the relational database in SQL Server; schema modeling and query optimization.
- Implemented authentication modules with secure user session handling.
- Analyzed and documented functional requirements, translating business needs into technical solutions.
- Resolved issues and fixed bugs in a collaborative development environment using Git and GitHub.
- Designed UI/UX interfaces focused on end-user experience for consumer applications.
- Integrated cloud services: AWS and Google Firebase for storage and authentication.
- Performed functional testing and validation of developed modules, ensuring correct application behavior before each release.

CFE — Mexican Federal Electricity Commission (Golfo Centro Distribution Division)

Professional Residency (Internship) • May 2024 – September 2024

- Implemented and supported IT solutions to optimize internal operational processes.
- Developed and maintained internal web pages and institutional information systems for managing, querying and tracking the department's operational processes.
- Server administration: IP addressing assignment and user access control.
- Prepared technical reports, hardware inventories and IT process documentation.
- Diagnosed and resolved incidents through on-site and remote technical support.

Starbucks

Shift Supervisor • November 2022 – January 2026

- Led a work team and supervised compliance with operating procedures.
- Managed inventory, order control and cash handling under direct responsibility.
- Produced operational reports and tracked store performance metrics.
- Solved operational problems and made decisions under pressure.

3M Informática

IT Support Technician • January 2017 – August 2018

- Preventive and corrective maintenance of computer equipment, both general and specialized.
- On-site and remote user support; software installation and configuration.
- Preparation of technical and administrative documentation.

TECHNOLOGIES AND TOOLS

Development: C#, JavaScript, Java, Python, HTML, CSS, Angular, Ionic, ASP.NET

Data and Cloud: SQL Server, Oracle, AWS, Google Firebase

Tools: Git, GitHub, Visual Studio, Visual Studio Code (VS Code), Android Studio

LANGUAGES

Spanish: Native

English: Intermediate

EDUCATION

M.Sc. in Computer Science

Instituto Tecnológico de Ciudad Madero • January 2026 – December 2027 (in progress)

B.Eng. in Computer Systems Engineering

Instituto Tecnológico de Ciudad Madero • 2019 – 2025 • Degree and professional license

Programming Technician (vocational high school)

CBTIS No. 103 "Francisco Javier Mina" • 2016 – 2019
